Ezyklik Plastic Hose Clamp
PARALLEL HAND TOOL – TECHNICAL LEAFLET

PART NUMBER: EZY-TOOL 604A

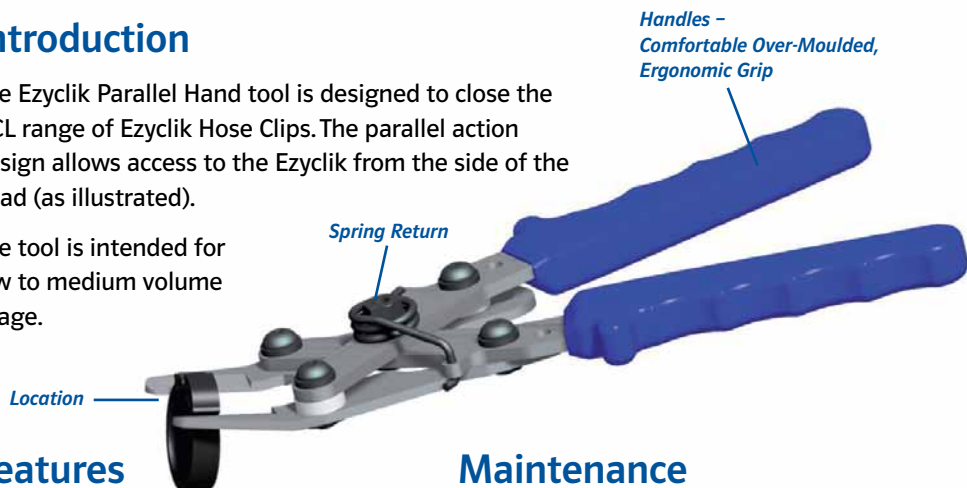

Ezyklik Plastic Hose Clamp

PARALLEL HAND TOOL – TECHNICAL LEAFLET

Introduction

The Ezyklik Parallel Hand tool is designed to close the HCL range of Ezyklik Hose Clips. The parallel action design allows access to the Ezyklik from the side of the head (as illustrated).

The tool is intended for low to medium volume usage.

Features

The items marked on the diagram provide the following functions:

Location

Allows tool jaws to locate correctly around the Ezyklik head.

Spring Return

Returns tool to the 'open' position when pressure is released.

Handles

Ergonomically designed and over-moulded in Santoprene for increased comfort.

Maintenance

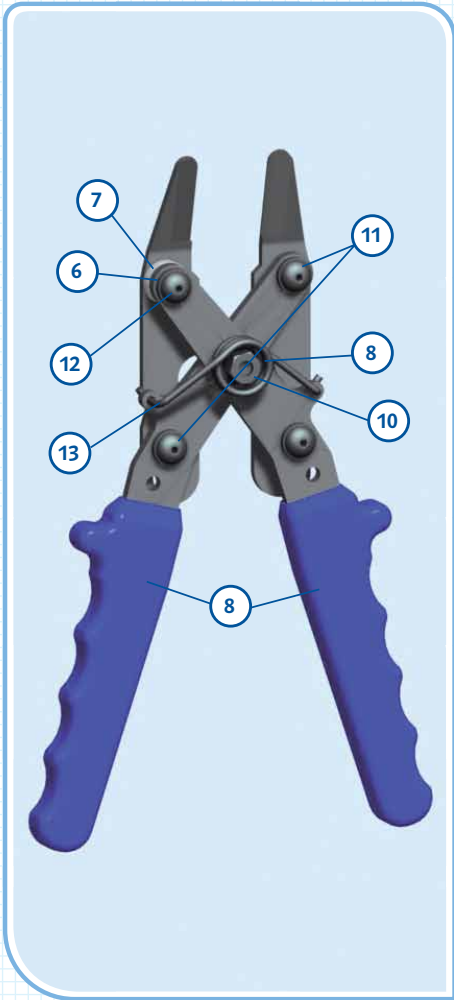

Clean and lubricate the tool regularly to maximise its working life.

Additional Tooling

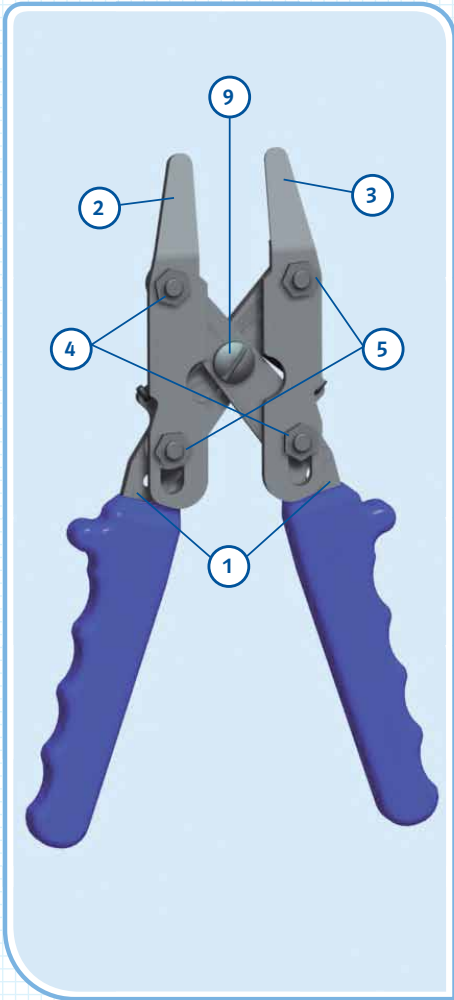

To maximise the potential of the Ezyklik in high volume production environments, a range of pneumatic tooling is also available.

Parts List

Item	Part Number	Description	Qty
1	604B	Leg Assembly	2
2	604C	Jaw 1	1
3	604D	Jaw 2	1
4	604E	Small Bush A	2
5	604F	Small Bush B	2
6	604G	Washer	4
7	604H	Spacer	2

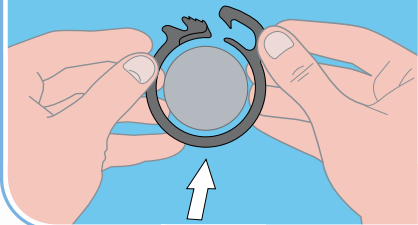

Item	Part Number	Description	Qty
8	528N	Bush (Not visible)	1
9		Slotted Dome Screw, M6x16LG	1
10		M6 Nut	1
11		Buttonhead, M6x12	2
12		Buttonhead, M6x16	2
13	528O	Torsion Spring	1

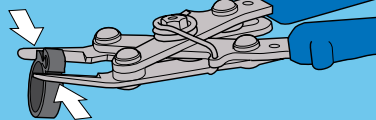

Fitting Instructions

1

Wrap Ezyklik around hose

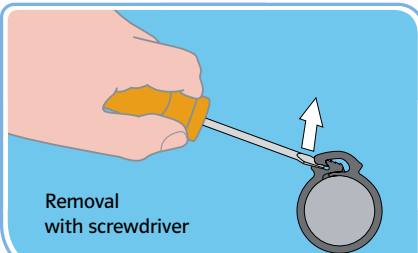

2

Installation from side of head using parallel hand tool

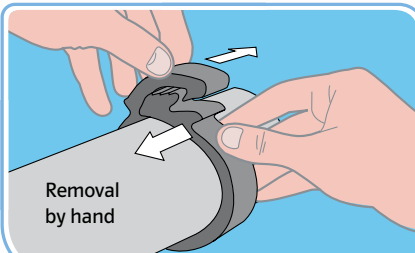

3

Removal
with screwdriver

4

Removal
by hand
